A STEADY WINTER

Hello Skiers and Boarders,

Well one part of the long range weather forecast for this season has been right for sure; it's been a more than normal cold winter. We have been blessed with good cold temps and regular snowfall since Dec. The tree and glades have been skiing especially well, and even at the moment, due to the cold temps, we are still skiing south facing runs down to 500m, which are normally sun affected by this time of the year.

Come on winter, keep on going.

Kind regards

Giacum Frei
